

**Airless Dispensing gun**

## TYPICAL APPLICATION

- Manual and robotic dispensing application.
- Body shop material dispensing, high speed stitching, mastic application system.
- Paint shop streaming, extrusion, and spray application.

## APPLICATION AREA

- Automotive industries
- Solar industries.
- Printing press
- Chemical industries.
- Lubrication system
- Packaging industry
- Adhesive & fealant manufacturing
- Food industry

**Mastic Regular**

## ADDITIONAL FEATURES

- Pneumatically controlled drum change over system.
- Electrical heated system for high temperature material dispensing.
- High pressure regulator for regulating line pressure.
- Various dispensing profile nozzle like round bid, flat bid.

**Z Swivel**

Model	D-301	D-451	D-601	D-751
Ratio	30:1	45:1	60:1	75:1
Output Per Cycle in CC	150	150	185	150
Max. Air Inlet Pressure in Bar	6	6	6	6
Max. Output Pressure in Bar	180	270	360	450
